

What now?

It is amazing what can happen when people put their heads together. In January the board of MilAtari met with the board of MAST and a mutual agreement was formed to merge the two clubs into a new entity. This will happen next month with the election of a new board.

At this month's meeting nominations will be taken for next month's elections. The following people have already volunteered to run for office:

Rom Braun	President
Rick Janowski	Vice President
Linda Heinrich	Secretary
	Treasurer

As you can see, we need a candidate for Treasurer.

At the joint board meeting it was agreed upon to create a new name for the club. Ideas will be solicited at this month's meeting and the best suggestions will be voted on at the April elections. We want to create a club where all members will be happy and supported. There will be both Atari and IBM libraries. Demonstrations will be planned for both platforms.

This will be the last regular edition of the MilAtari newsletter. Starting with next month's newsletter Bob Carpenter will take over the duties of Newsletter editor. He has done a fine job with the MAST newsletter and I am looking forward to moving on to different challenges. I have volunteered to take over the duties of Atari ST Public Domain Librarian. We will merge the libraries of both clubs into one and I hope to bring out at least one new disk each month. I will also continue to make a ST disk each month which will include the latest online magazines and any good sales that I come across. These disks will be available at club meetings for a modest fee.

Make the time to come to the meetings and be a part of the new club's evolution.

From the President

Welcome, True Believers, to the final MilAtari newsletter! (That is to say, the last one as you've seen it the last couple of years.)

This is my less than subtle way of announcing that next month is the beginning of an all new computer club (or should I say, society). In April, we will have all the members of MAST and MilAtari under one roof. One club with a new board and most likely a new name will rise from the ashes of two.

If you were a member who had become disenchanted with the way either old club was doing things, then you owe it to yourself to stick around and help mold this new club to your liking. This weekend (same time, same place) we will be taking nominations for a new board as well as for a new, bold and exciting club name for the "next generation" of computer users. **DON'T LET THIS FINE OPPORTUNITY PASS! TAKE CHARGE AND BECOME PART OF THE FUTURE OF PC USERS EVERYWHERE!**

Although I will continue to be involved in my club and yours, it will not be as President. I would like to take this chance to say thank you to everyone who worked with me this past year. In particular, I would like to thank Carl Verbanac and Dave Glish for making me look good while they took care of the nitty gritty details.

It is said that we cannot stop progress. My hope and goal is that we can all benefit from it and have fun in the process! See you Saturday.

Rick

Editors Comment

It is my sad duty to report that Donovan Peterson passed away in January. Donovan was a long time member of MilAtari and a regular participant at the monthly meetings. Donovan will be missed.
